

Pivot Downlighter

The Pivot recessed gimbal type downlighter has an opal white diffuser which provides a uniform wide beam (110°) light effect

This along with 350° horizontal / 40° vertical adjustability make it the ideal solution for wall washing with an even distribution of light from minimal number of light fittings

In addition to above, the fitting is supplied with a high CRI value of 90 making it perfect for washing display units or full walls of merchandise in retail settings
