

POP 2 Twin Downlight [White 4000K]

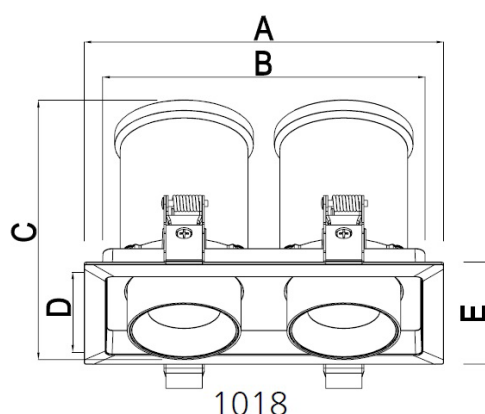

The POP2 recessed downlighter has a high lumen COB light source with special optic lens and reflector design producing uniform light with low glare effect.

It has a modular reflector which allows easy replacement for different beam width.

The AL6063 housing provides great thermal heat management.

The range of adjustability of the heads makes it ideal for lighting in retail shops & supermarkets. There is also a dimmable driver which allows it be used in hospitality settings like restaurants & hotels.
