

HI-AISLE Linear High Bay Light

The HiRack LED linear high bay with motion-sensor provides the ideal lighting for warehouse aisles. Asymmetric optic lenses fit tight aisles between high racks quite effectively. Aisles are properly matched by the rectangular light pattern, which significantly reduces light loss. Can be ceiling mounted or wire suspended.

Lamp	SMD LED
Material	Aluminium + Polycarbonate
Wattage	150W
IP rating	IP65
Dimmable	Yes
Input Voltage	AC100-240V, 50/60Hz
CCT	4000K
CRI	70
Beam Angle	40 ° x 120 °
Lumen output	24000LM

Dimensions

Height	102mm
Length	718mm
Width	173mm
