

## Ruble Black Wall Light

The Ruble wall light in black, produces two sources of LED lighting. One source of direct lighting coming from the LED adjustable arm and another source coming from beneath the backplate, allowing a soft glow of light to surround it. The backplate also includes a USB + USB-C port.

|           |                          |
